## Author index of Volume 43

Abramov, S. and R. Glück, The universal resolving algorithm and its correctness: inverse computation in a functional language	(2-3)	193-229
Backhouse, R. and J. Oliveria, Preface	(2-3)	91- 92
Bunkenburg, A., <i>see</i> J.M. Morris	(1)	77- 89
Glück, R., <i>see</i> S. Abramov	(2-3)	193-229
Hayes, I., Reasoning about real-time repetitions: terminating and nonterminating	(2-3)	161-192
Hinze, R., Polytypic values possess polykinded types	(2-3)	129-159
Jansson, P. and J. Jeuring, Polytypic data conversion programs	(1)	35- 75
Jeuring, J., <i>see</i> P. Jansson	(1)	35- 75
Morris, J.M. and A. Bunkenburg, A source of inconsistency in theories of nondeterministic functions	(1)	77- 89
Nordlander, J., Polymorphic subtyping in O'Haskell	(2-3)	93-127
Oliveria, J., <i>see</i> R. Backhouse	(2-3)	91- 92
Usenko, Y.S., State space generation for the HAVi leader election protocol	(1)	1- 33
